PROFESSIONAL SUMMARY

AI & Machine Learning Engineer specializing in LLMs, Deep Learning, and Computer Vision. Currently pursuing a Master's in Data Science while ranking as a Kaggle Master (top 1%) and maintaining Top-Rated status on Upwork. Expert in developing scalable ML solutions, from fine-tuning state-of-the-art models to deploying production-ready systems. Passionate about turning complex AI challenges into practical business solutions.

EXPERIENCES

Jul 2024 — Present	AI / ML Engineer, Velents	Riyadh, Saudi Arabia
	- Developed and deployed Generative AI models, including advanced LLMs, significantly enhancing recruitment workflows. - Created sophisticated video interview solutions leveraging real-time facial recognition and sentiment analysis. - Designed Retrieval-Augmented Generation (RAG) systems for precise resume and skill matching. - Engineered an AI agent integrating Whisper-based ASR and LLMs to autonomously transcribe, summarize, and contextualize meetings in real time. - Continuously optimized models using MLOps best practices.	
Sep 2023 — Feb 2025	Machine Learning Engineer, TwentyToo	Cairo, Egypt
	- Developed innovative AI-based search engines and object detection systems for the fashion e-commerce sector. - Implemented advanced Auto-Tagging and image retrieval technologies, substantially improving user experience and engagement. - Utilized deep learning models, transfer learning, and image processing techniques to streamline fashion industry workflows.	
Apr 2021 — Present	AI & Machine Learning Engineer , Upwork	Port Said, Egypt
	- Achieved Top-Rated status for delivering high-quality AI, NLP, and deep learning solutions tailored to diverse client needs. - Provided end-to-end AI services, including web scraping, data engineering, cloud deployment, and model optimization. - Successfully delivered multiple high-impact projects utilizing state-of-the-art AI frameworks and cloud infrastructures.	
Oct 2018 — Jul 2023	Data Scientist, Kaggle	Port Said, Egypt
	- Maintained Kaggle Codes Master and Competitions Expert, consistently ranking in the top 1%. - Solved complex data-driven problems using cutting-edge machine learning and deep learning methods. - Contributed to community education initiatives, sharing knowledge and collaborating on advanced data science projects.	

EDUCATION

Jan 2024 — Jun 2025	M.Sc. in Data Science, Cairo University, Faculty of Graduate Studies for Statistical Research	Cairo
Sep 2016 — Jul 2021	B.Sc. in Electrical and Communication Engineering, Port-Said University, Faculty of Engineering	Port Said

SKILLS

Python, R, SQL, NoSQL (MongoDB, Cassandra), Bash	PyTorch, TensorFlow, Hugging Face Transformers, LangChain
Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, AI Agents	Scikit-learn, FastText, OpenCV, NumPy, Pandas, Matplotlib, XGBoost, SpaCy, NLTK
Transformers, RAG, Whisper ASR, Prompt Engineering, LoRA/QLoRA, Function Calling	AWS, Azure, GCP (Vertex AI), Docker, Kubernetes, CI/CD, GitHub Actions
GPT, LLaMA, Mistral, Claude, Gemini, vLLM, Sentence-Transformers	MLflow, Weights & Biases, Model Monitoring, A/B Testing, Experiment Tracking
ETL Pipelines, Data Wrangling, Feature Engineering, Web Scraping, REST/gRPC APIs	Kafka, FAISS, Pinecone, Weaviate, Semantic Search, Vector Indexing

LANGUAGES

Arabic	Native speaker	Spanish	A1
English	Highly proficient
