

Islam Kassem

Riyadh, Saudi Arabia | iqasem4444@gmail.com | (+966) 538562171 | [LinkedIn](#)

AI / ML Engineer | MSc Candidate | Kaggle Master (Top 1%) | Upwork Top-Rated (50+ projects)

Professional Summary

Designs and productionizes **LLMs, RAG/semantic-search** pipelines, **Whisper ASR, multimodal computer-vision** systems, and **autonomous agents**. Expert in **LoRA/QLoRA fine-tuning, inference cost & latency optimization**, and building **end-to-end ML platforms** (data engineering, experimentation, **CI/CD, MLflow, monitoring**) to ship **scalable, production-ready** AI features.

Experiences

AI Engineer, MasterWorks

Riyadh, Nov 2025 to Present

- Supporting AI initiatives at Nabeh, the AI arm of Master Works, delivering enterprise-grade AI and data-driven solutions.
- Designing and deploying scalable AI systems including Speech-to-Text (ASR), LLM-powered applications, and intelligent chatbots.
- Building end-to-end ML pipelines—from data engineering and experimentation to production deployment and optimization.

AI / ML Engineer, Velents

Riyadh, Jul 2024 to Aug 2025

- Designed and deployed **Generative AI models (LLMs, RAG, Whisper ASR)**, improving recruitment workflows and automation.
- Built **video interview intelligence solutions** with real-time **facial recognition & sentiment analysis**.
- Engineered **AI meeting assistant agents** combining Whisper + LLMs to **transcribe, summarize meetings autonomously**.
- Implemented **resume-skill semantic matching using RAG**, increasing candidate-job fit accuracy.

Machine Learning Engineer, TwentyToo

Cairo, Aug 2023 to Jul 2024

- Developed **AI-powered search & recommendation engines** for fashion e-commerce, increasing engagement metrics.
- Implemented **auto-tagging & image retrieval systems** using **transfer learning & CNNs**.
- Leveraged **computer vision and embedding-based retrieval** to streamline fashion catalog management.

AI & Machine Learning Engineer, Upwork

Cairo, Apr 2021 to Aug 2023

- Delivered **end-to-end AI projects** (NLP, computer vision, predictive analytics) for global clients.
- Specialized in **data pipelines, cloud deployment (AWS, GCP, Azure), and scalable ML APIs**.
- Consistently earned **Top-Rated** recognition by maintaining 100% client satisfaction across 50+ projects.

ML Competitions Expert, Kaggle

Port Said, Oct 2018 to Apr 2021

- **Competed** in **15+ Kaggle competitions**; earned **2 Silver** and **2 Bronze** medals with top placements.
- **Published** reproducible, educational notebooks; recognized for community contributions and ranked among **top Code Masters**.
- **Specialized** in **feature engineering, ensembling** and **model optimization** to deliver **high-performing solutions**.

Education

M.Sc. in Data Science

Cairo, Jan 2024 to Present

Cairo University, Faculty of Graduate Studies for Statistical Research

B.Sc. in Electrical and Communication Engineering

Port Said, Sept 2016 to Jul 2021

Port-Said University, Faculty of Engineering

Areas of Expertise

Python, R, SQL, NoSQL (MongoDB, Cassandra), Bash | Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, AI Agents | Transformers, RAG, Whisper ASR, Prompt Engineering, LoRA/QLoRA, Function Calling | GPT, LLaMA, Mistral, Claude, Gemini, vLLM, Sentence-Transformers | ETL Pipelines, Data Wrangling, Feature Engineering, Web Scraping, REST/gRPC APIs | PyTorch, TensorFlow, Hugging Face Transformers, LangChain | Scikit-learn, FastText, OpenCV, NumPy, Pandas, Matplotlib, XGBoost, SpaCy, NLTK | AWS, Azure, GCP (Vertex AI), Docker, Kubernetes, CI/CD, GitHub Actions | MLflow, Weights & Biases, Model Monitoring, A/B Testing, Experiment Tracking | Kafka, FAISS, Pinecone, Weaviate, Semantic Search, Vector Indexing

Languages

Arabic, English, Spanish

Accomplishments

- **LangChain MCP adapter contributor** — open-source contributions on GitHub.
- **Kaggle Competitions Expert** — completed 15 competitions; earned 2 Silver and 2 Bronze medals.
- **Kaggle Code Master (Top 1%)** — published reproducible, educational notebooks supporting community learning.
- **Upwork Top-Rated Freelancer** — delivered 50+ AI/ML & Data Science projects with 100% job success score.
